## MAESTRO project - PhD fellowships and Postdoc positions available

Mass Spectrometry Laboratory, Institute of Biochemistry and Biophysics, Pol. Acad. Sci. (<http://mslab-ibb.pl/>) seeks candidates for:

- **Junior Postdoctoral Fellow – two positions**
- **PhD student – three fellowships**

Successful candidates will be involved in the project: **Approach to structures of difficult protein targets using new mass spectrometry-based methods** (project leader Professor Michał Dadlez), which will be carried out in collaboration with our French, UK, USA & German partners. The project focus is the application of MS-based techniques for an in-depth analysis of selected protein assemblies, including their structural analysis (Ion Mobility Separation-MS, ETD monitored HDexchange, etc.)

**Details available at: <http://mslab-ibb.pl/en/maestro-2>**

Application deadlines:

for Postdoctoral position: **22.05.2011**

for PhD fellowship: **19.06.2015**
